INTERNATIONAL QUALITY RELATIONSHIP NETWORK

As Akgün Grup, we are successfully continuing our activities today in the furniture and decoration sector, which we started in Istanbul in 1981, in the production floor and warehouse of 7,000 m2. With our passion for the work we do and our respect for our values, we have accomplished hundreds of projects within the country and abroad.

Akgün Grup
Furniture & Decoration

brings**theplace**to**life**

Akgün Grup, which started its production activities in a workshop of 150 m² in 1981, increased its production area to 900 m² in 2000.

With the investment made in 2006, the company has increased its production floor and warehouse capacity to 7,000 m2, including an indoor area of 4000 m2 and an outdoor area of 3000 m2. The machine park has also been changed and strengthened along with the expansion of the production area. The production capacity has been greatly increased with the use of computer aided machines and an experienced team. We are able to process all kinds of raw materials brought into the production section in all kinds of ways, thanks to the latest technology machinery.

In our wood, metal, acrylic, skeleton, polish and flooring lines, our team of experts, classical production machines and equipment, as well as machines computerized with cutting-edge technology are used.

7000 m² working and storage area.

Design

Design; an art form without limitations or borders. An indescribable concept that varies according to tastes, perspectives and styles.

After sales and installation service

After sales and installation service; we carry out the repairs, modifications, revisions and changes of the products we install under warranty.

Design projects

Design projects; we create their details, shop drawings, patterns, ratios, proportions, surfaces and color samples preparation and presentations with our architectural team.

Special design products

Special design products; comfortable, ergonomic, functional, stylish, aesthetic, robust and high quality. We design furniture that you will enjoy for many years, with all details considered based on your comfort and expectations. We bring your design projects and style to life.

In our production line

In our production line; with rational solutions, we focus on the highest benefit, lowest cost and timely delivery. In our cutting edge technology machine park, we can produce both mass production and user-oriented designs.

On-site assembly

On-site assembly; we have implemented many projects within the country and abroad. With our experienced and qualified team, we make on-site installations and deliver it to you on time and completely.
